HEIBRiDS NEWS

> *"You can have data without information, but you cannot have information without data."*
>
> *- Daniel Keys Moran, computer programmer and science fiction writer*

Welcome to the first issue of the HEIBRiDS Newsletter! Here you will get an overview of the most important events of the past and upcoming month that are of relevance to the HEIBRiDS PhD students and HEIBRiDS partners.

Past Events

HEIBRiDS Retreat
The first **HEIBRiDS Spring School** took place at Hotel Döllnsee on March 28-30, 2019 (https://www.doellnsee.de). On Day 1 and 2 each student had 30 min to present and discuss his/her work and progress. At the end of each day, PIs gave feedback for each PhD candidate at a closed, plenary session, which each supervisor later summarized and conveyed to the respective student. In addition to this, there was a Keynote speaker on Day 2 and a social activity organized by - and for - the PhD students on Day 3.

Conferences

Sergey Redyuk participated with a poster presentation at the **IEEE 35th International Conference on Data Engineering (ICDE'19), Macau, China.** You can read more about this work here: https://sergred.github.io/publication/2019-04-08-ICDE-PhD-Proposal

"The IEEE ICDE conference is one of the leading international database conferences. This year, the conference was held in Macau, China. The conference was well attended, with a high diversity of research institutions present, skewed mainly towards USA and China. Researchers from Germany appeared in the top-6 list of publication origins."

Training

Felix Fiedler participated in the Helmholtz Transferable Skills course: Research Skills Development that took place at Schloss Buchenau, 23-26 April

"The course gave very concrete advice on task and time management tools and methods, literature research and management. The method is very engaging, and the lessons are quite memorable. Overall, the course was an amazing experience, the atmosphere was great and last but not least a fantastic opportunity to meet interesting people."

Upcoming events

PhD Candidate Interview Week **May 13-15**

Other events

Machine Learning in Life Science Colloquium (for more information see below)
