Tabea Rettelbach receives Bernd Rendel Prize for Early Achievements in the Geosciences

HEIBRiDS PhD candidate Tabea Rettelbach is one of two young researchers who will be awarded [this year's Bernd Rendel Prize by the Deutsche Forschungsgemeinschaft](#) (DFG, German Research Foundation) in recognition of their promising and original pre-doctoral research in the geosciences. Tabea Rettelbach conducts research into permafrost, focusing on a topic that is becoming increasingly important in view of climate change. The prizewinners will each receive € 3,000 from the Bernd Rendel Foundation, which is administered by Stifterverband. The prize will be presented at the annual meeting of the German Geological Society, which is to take place in **Dresden from 23 to 26 September 2024**. Tabea plans to use her prize money to attend the Computer Vision and Pattern Recognition Conference.

Congratulations!
